DYSTER PIRATES SHOT AT ONE MAN AT A STANDSTILL

The Question of Stopping Summer Depredation Has Been Solved by New Board,

San Domingo to Make Exhibition at Jamestown-Light Man Disappears.

(Special to The Times-Dispatch)
NORPOLK, VA, July 6.—President McDonald Lee, of the sitate Board or Fisheries, thinks that the difficult question of stopping depredation on the State cyster rocks in the estimater season has seen solved. In the solution of the question of the properties, of Hampton, and Captain Mumord, of West Point, big oyster operators, Several small salling vessels, loaned by Mr. Paring and Captain Mumord, with guards aboard, have been anchored on the rocks of the James, where degreeations are the most frequent, and these keep the pirates of. But, of course, the regular vessels of the oyster may restill doing husiness. The plan is working splendidly.

I by Bickford, of Hampton, has filed a suit in the United States District Court up the James this morning and returned this evening.

Big Suit.

J. V. Bickford, of Hampton, has filed a suit in the United States District Court against the Old Dominion Browery Company, bankrupt, of Newport News, asking damages in the sum of 120,000, for fedure of the samkrupt company to furnish him with its ice at \$25,0 a ton for a term of fifteen years, which he was haled for his appearance for trail nowwork and Elizabeth City, and Old Point Comfort.

Bickford further alleges that he erected adopt at Phoebus at a cost of \$1,000, and that the bankrupt company agreed to early the sum of \$2,000, for fedure of the same transport of the States District Court a part of it as a place to store beer.

Be Sure Before You Buy

CIGAR EDITORIALS-No. 8

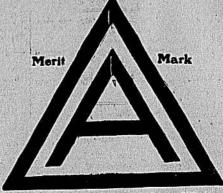

Probably three-quarters of all cigars sold over a counter are bought on faith. The purchaser mentions no particular brand. He slaps down hi money and says, "Give me a good 5-cent cigar," or whatever price it may be.

In the old trust-to-luck methods of curing tobacco and making cigars there was absolutely no way by which such a pur-chaser could be sure of what he was getting. The dealer could not assure him, because the dealer himself did not know what kind of tobacco was used, even though he made the cigar himself. It might be as good a cigar as the last one sold from the same box - and then again, it might not. The only possible way by which a man could know the quality of a cigar before "A" (Triangle A) processes were developed, was by smoking it.

To sum it all up in a phrase, cigars made up under the old system seldom "ran well." This was sometimes the fault of the manufacturer, but oftener the fault of the conditions under which the cigars were made. /

All that is changed now. The American Cigar Company has, at a cost of millions of dollars and years of time spent in experimenting, perfected new processes of

THE "TRIANGLE A"

Stands for Honest Cigar Values

tobacco curing, blending and ripening, which have not only improved cigar quality 50 to 100 per cent., but have made that quality an absolutely fixed and certain factor in each brand. All cigars made under these processes

have the "A" (Triangle A) stamped on the front of the boxes. If you ask for, and insist upon getting, a brand so marked, you can be sure of the quality of that cigar before you light it.

All cigars so marked will be found invariably smooth, mellow and full of fragrance; absolutely free from "rankness" or bitterness; burning truly, slowly and evenly, and of the highest quality which their respective prices can purchase.

, This superiority is so apparent that every I new brand made under the "A" (Triangle A) processes jumps instantly into popular favor, and each one makes a new record in success.

No one cigar will suit all tastes. There are many "A" (Triangle A) brands, and among them you are sure to find the cigar you want. Make a test of the Prince George at 5c. and New Continental Bouquer at 4-for-25c. One of the most popular of "A" (Triangle A) productions

In every factor that goes to make up cigar quality, the New Cremo at 5c. will equal or surpass any cigarthat sold at 3-for-25c. before "A" (Triangle A) processes were perfected.

NORFOLK, VA., July 5.—In connection with the proposed presentation by the citizens of Norfolk and vicinity of some suitable token to Rear Admiral P. F. Harrington on his retirement from the command of the Norfolk navy yard on Saturday, it has been suggested that the admiral be invited to make his home in Norfolk, the invitation to come from the citizens in general.

Admiral Harrington will have direct charge of the naval features in connection with the Jamestown Exposition celebration next year.

During his residence at the navy yard he has won the hearts of Norfolk and Portsmouth people of all classes. The several thousand workmen in the navy yard are among the rottring rear admiral's most ardent admirers, and to-morrow, from 12 o'dock until 1 P. M., the admiral will hold a public reception in the park at the navy yard, where all of the yard employes will have the opportunity of meeting him personally and saying good-bye. saying good-bye.
